# Project Area: Formal Project Management Process

## Summary:

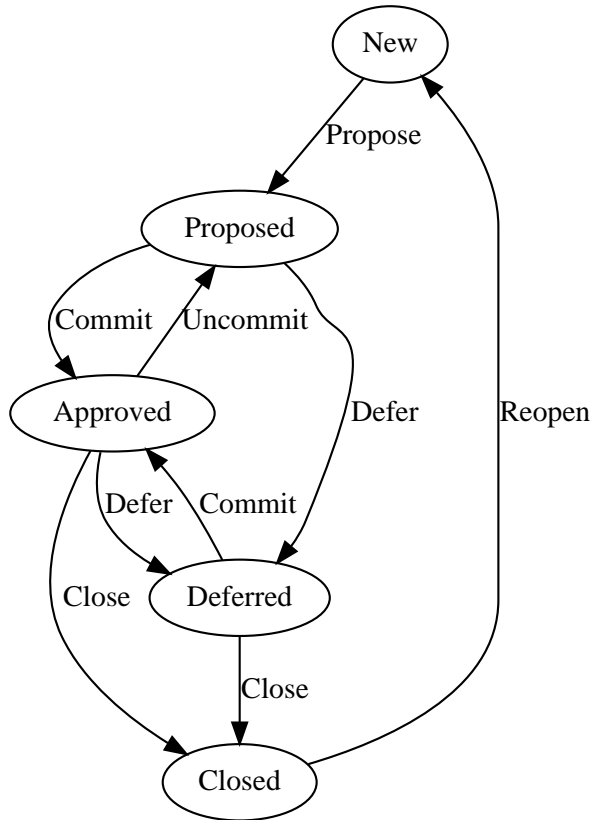

This is the Formal Project Management Process Template

## Description:

This project area is an unchanged example of the out of the box Formal Project Management Process Template\_

It is a good example of a full process with many unique attributes\_

# Business Need Type

## States

States Name	State Group	Available Actions
➡ Approved	Open	Close, Defer, Uncommit
🔒 Closed	Closed	Reopen
🕒 Deferred	Closed	Close, Commit
🔖 New	Open	Propose
➡ Proposed	Open	Commit, Defer

## Actions

Actions Name	Target State	Source State(s)	Permissions	Resolution(s)
🔒 Close	Closed	Approved, Deferred	analyst, architect, developer, project_manager, release_engineer, team_lead, tester	Implemented, Rejected
➡ Commit	Approved	Deferred, Proposed	analyst, architect, developer, project_manager, release_engineer, team_lead, tester	
⏸ Defer	Deferred	Approved, Proposed	analyst, architect, developer, project_manager, release_engineer, team_lead, tester	
➡ Propose	Proposed	New	analyst, architect, developer, project_manager, release_engineer, team_lead, tester	
🔓 Reopen	New	Closed	analyst, architect, developer, project_manager, release_engineer, team_lead, tester	
➡ Uncommit	Proposed	Approved	analyst, architect, developer, project_manager, release_engineer, team_lead, tester
